

Brush & Mop

with **Fluid**

Brush & Mop with Fluid

scrub-to-swipe complete clean team

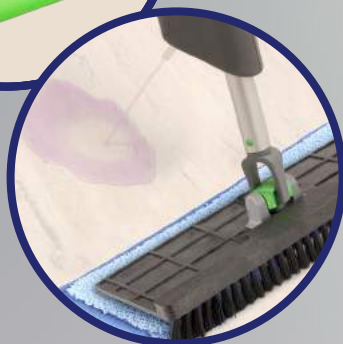

The Brush & Mop is your one solution for every floor you clean with its angled brushes and thick absorbent microfiber pad.

Combined with the Fluid handle, this system is the most ergonomic, user friendly & durable bucketless microfiber mopping system in the world.

Bucket Not Required

Simplify your mopping with our sturdy 4lb bucketless mop, the Fluid.

Choose your own cleaning solution, or go green and clean with just water from your faucet and the power of microfiber.

Designed For Humans

We care about your comfort. Take the work out of cleaning your floors and finish the job faster and easier.

The patent-pending power grip handle fits your hand perfectly, lightweight body prevents fatigue, and large trigger offers easy fluid dispensing without hand cramps from squeezing over and over.

Built To Last

Built bomber-tough for the pros, but available to everyone with a limited **LIFETIME WARRANTY**

Its commercial-grade, functional design eliminates leaking or clogging

the commercial-grade microfiber pad is guaranteed to last 500 launderings.

Cleaning Redefined

The patented Brush & Mop frame and pad offer angled, non-scratch brushes that reach deep into uneven floor surfaces and grout for a thorough clean. The highly absorbent double-sided microfiber pad finishes the job neatly.

So bring your biggest, muckiest mess, Brush & Mop will take care of it with ease.
